

FIELD MAINTENANCE INTERNSHIP

Program Overview: Field Maintenance Interns will have the opportunity to learn best practices of maintaining a professional baseball field and work in the following areas:

- mowing and watering the grass field and recognizing potential issues in the turf
- caring for the infield skin, including dragging, adding/removing/leveling surface, edging to keep nice lines of turf and removing/preventing lips from forming
- repairing the game mound, bullpen mounds and home plate areas
- working the warning track for edging, keeping weeds from developing and keeping level through dragging
- reading the weather to know when the tarp needs to be put on the field and taken off
- working with the field manager for batting practice needs
- Prepping the field for the game

Qualifications/Requirements:

- A desire to explore a career in baseball field maintenance
- The drive to make this internship your TOP priority during the summer.
- Interns **MUST** be available to work for the duration of the internship program.
- The ability to work as part of a team
- Strong customer service skills

Field Maintenance interns will report directly to the General Manager while also working with other staff members. The Field Maintenance Internship is a paid position while also being eligible to earn school credit if desired.
